

➤ Locating outputs for the NHS Staff Survey

Outputs published by the Survey Coordination Centre for the NHS Staff Survey fall into three categories:

Supporting documents

- Documents providing key background information to the survey and the results reported.
- See details on [slide 2](#).

National results

- Contains results for all participating trusts and results split by trust type.
- See details on [slide 2](#).

Local results

- A number of different outputs detailing results for each participating organisation.
- See details on [slide 3](#).

Outputs are published in three formats:

PDF reports

Online dashboards

Excel spreadsheets
