4: Full description of 2016 Key Findings for Royal Devon and Exeter NHS Foundation Trust (including comparisons with the trust’s 2015 survey and with other acute trusts) 16
1. Introduction to this report

This report presents the findings of the 2016 national NHS staff survey conducted in Royal Devon and Exeter NHS Foundation Trust.

In section 2 of this report, we present an overall indicator of staff engagement. Full details of how this indicator was created can be found in the document *Making sense of your staff survey data*, which can be downloaded from www.nhsstaffsurveys.com.

In sections 3 and 4 of this report, the findings of the questionnaire have been summarised and presented in the form of 32 Key Findings.

These sections of the report have been structured thematically so that Key Findings are grouped appropriately. There are nine themes within this report:

- Appraisals & support for development
- Equality & diversity
- Errors & incidents
- Health and wellbeing
- Working patterns
- Job satisfaction
- Managers
- Patient care & experience
- Violence, harassment & bullying

Please note, two Key Findings have had their calculation changed and there have been minor changes to the benchmarking groups for social enterprises since last year. For more detail on these changes, please see the *Making sense of your staff survey data* document.

As in previous years, there are two types of Key Finding:

- percentage scores, i.e. percentage of staff giving a particular response to one, or a series of, survey questions

- scale summary scores, calculated by converting staff responses to particular questions into scores. For each of these scale summary scores, the minimum score is always 1 and the maximum score is 5

A longer and more detailed report of the 2016 survey results for Royal Devon and Exeter NHS Foundation Trust can be downloaded from: www.nhsstaffsurveys.com. This report provides detailed breakdowns of the Key Finding scores by directorate, occupational groups and demographic groups, and details of each question included in the core questionnaire.
Your Organisation

The scores presented below are un-weighted question level scores for questions Q21a, Q21b, Q21c and Q21d and the un-weighted score for Key Finding 1. The percentages for Q21a – Q21d are created by combining the responses for those who “Agree” and “Strongly Agree” compared to the total number of staff that responded to the question.

Q21a, Q21c and Q21d feed into Key Finding 1 “Staff recommendation of the organisation as a place to work or receive treatment”.

<table>
<thead>
<tr>
<th>Question</th>
<th>Your Trust in 2016</th>
<th>Average (median) for acute trusts</th>

<td>85%</td>
<td>70%</td>
<td>81%</td>
</tr>
<tr>
<td>KF1. Staff recommendation of the organisation as a place to work or receive treatment (Q21a, 21c-d)</td>
<td>3.98</td>
<td>3.77</td>
<td>3.89</td>
</tr>
</tbody>
</table>
2. Overall indicator of staff engagement for Royal Devon and Exeter NHS Foundation Trust

The figure below shows how Royal Devon and Exeter NHS Foundation Trust compares with other acute trusts on an overall indicator of staff engagement. Possible scores range from 1 to 5, with 1 indicating that staff are poorly engaged (with their work, their team and their trust) and 5 indicating that staff are highly engaged. The trust's score of 3.91 was in the highest (best) 20% when compared with trusts of a similar type.

**OVERALL STAFF ENGAGEMENT**

(The higher the score the better)

<table>
<thead>
<tr>
<th></th>
<th>Scale summary score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2016</td>
<td>3.91</td>
</tr>
<tr>
<td>Trust score 2015</td>
<td>3.85</td>
</tr>
<tr>
<td>National 2016 average for acute trusts</td>
<td>3.81</td>
</tr>
</tbody>
</table>

This overall indicator of staff engagement has been calculated using the questions that make up Key Findings 1, 4 and 7. These Key Findings relate to the following aspects of staff engagement: staff members’ perceived ability to contribute to improvements at work (Key Finding 7); their willingness to recommend the trust as a place to work or receive treatment (Key Finding 1); and the extent to which they feel motivated and engaged with their work (Key Finding 4).

The table below shows how Royal Devon and Exeter NHS Foundation Trust compares with other acute trusts on each of the sub-dimensions of staff engagement, and whether there has been a significant change since the 2015 survey.

<table>
<thead>
<tr>
<th>OVERALL STAFF ENGAGEMENT</th>
<th>Change since 2015 survey</th>
<th>Ranking, compared with all acute trusts</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• No change</td>
<td>✓ Highest (best) 20%</td>
</tr>
</tbody>
</table>

**KF1. Staff recommendation of the trust as a place to work or receive treatment**

(The extent to which staff think care of patients/service users is the trust’s top priority, would recommend their trust to others as a place to work, and would be happy with the standard of care provided by the trust if a friend or relative needed treatment.)

✓ Increase (better than 15)  ✓ Highest (best) 20%

**KF4. Staff motivation at work**

(The extent to which they look forward to going to work, and are enthusiastic about and absorbed in their jobs.)

• No change  • Average

**KF7. Staff ability to contribute towards improvements at work**

(The extent to which staff are able to make suggestions to improve the work of their team, have frequent opportunities to show initiative in their role, and are able to make improvements at work.)

• No change  ✓ Highest (best) 20%

Full details of how the overall indicator of staff engagement was created can be found in the document *Making sense of your staff survey data.*
3. Summary of 2016 Key Findings for Royal Devon and Exeter NHS Foundation Trust

3.1 Top and Bottom Ranking Scores

This page highlights the five Key Findings for which Royal Devon and Exeter NHS Foundation Trust compares most favourably with other acute trusts in England.

**TOP FIVE RANKING SCORES**

- **KF25. Percentage of staff experiencing harassment, bullying or abuse from patients, relatives or the public in last 12 months**
  
  *(the lower the score the better)*

</tbody>
</table>

For each of the 32 Key Findings, the acute trusts in England were placed in order from 1 (the top ranking score) to 98 (the bottom ranking score). Royal Devon and Exeter NHS Foundation Trust’s five highest ranking scores are presented here, i.e. those for which the trust’s Key Finding score is ranked closest to 1. Further details about this can be found in the document *Making sense of your staff survey data.*
This page highlights the five Key Findings for which Royal Devon and Exeter NHS Foundation Trust compares least favourably with other acute trusts in England. It is suggested that these areas might be seen as a starting point for local action to improve as an employer.

**BOTTOM FIVE RANKING SCORES**

1. **KF12. Quality of appraisals**
   
   *(the higher the score the better)*

   ![Graph showing comparison between Trust score 2016, National 2016 average for acute trusts, Scale summary score, and Low-quality appraisals vs. High-quality appraisals. The scores are 3.00 for Trust score 2016 and 3.11 for National 2016 average for acute trusts.]

2. **KF24. Percentage of staff / colleagues reporting most recent experience of violence**
   
   *(the higher the score the better)*

   ![Graph showing comparison between Trust score 2016, National 2016 average for acute trusts, Percentage score, and Low-violent experiences vs. High-violent experiences. The scores are 64% for Trust score 2016 and 67% for National 2016 average for acute trusts.]

3. **KF2. Staff satisfaction with the quality of work and care they are able to deliver**
   
   *(the higher the score the better)*

   ![Graph showing comparison between Trust score 2016, National 2016 average for acute trusts, Scale summary score, and Unsatisfactory delivery of work / care vs. Highly satisfactory delivery of work / care. The scores are 3.95 for Trust score 2016 and 3.96 for National 2016 average for acute trusts.]

4. **KF6. Percentage of staff reporting good communication between senior management and staff**
   
   *(the higher the score the better)*

   ![Graph showing comparison between Trust score 2016, National 2016 average for acute trusts, Percentage score, and Low-communication vs. High-communication. The scores are 33% for Trust score 2016 and 33% for National 2016 average for acute trusts.]

5. **KF4. Staff motivation at work**
   
   *(the higher the score the better)*

   ![Graph showing comparison between Trust score 2016, National 2016 average for acute trusts, Scale summary score, and Not enthusiastic / absorbed vs. Enthusiastic / absorbed. The scores are 3.95 for Trust score 2016 and 3.94 for National 2016 average for acute trusts.]

For each of the 32 Key Findings, the acute trusts in England were placed in order from 1 (the top ranking score) to 98 (the bottom ranking score). Royal Devon and Exeter NHS Foundation Trust’s five lowest ranking scores are presented here, i.e. those for which the trust’s Key Finding score is ranked closest to 98. Further details about this can be found in the document *Making sense of your staff survey data.*
3.2 Largest Local Changes since the 2015 Survey

This page highlights the five Key Findings where staff experiences have improved at Royal Devon and Exeter NHS Foundation Trust since the 2015 survey.

WHERE STAFF EXPERIENCE HAS IMPROVED

**KW13. Quality of non-mandatory training, learning or development**
*Scale summary score*

<table>
<thead>
<tr>
<th>Training Quality</th>
<th>Trust score 2016</th>

<th>Trust score 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>13%</td>
<td>17%</td>
</tr>
</tbody>
</table>

**KW32. Effective use of patient / service user feedback**
*Scale summary score*

<table>
<thead>
<tr>
<th>Feedback Use</th>
<th>Trust score 2016</th>
<th>Trust score 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3.76</td>
<td>3.64</td>
</tr>
</tbody>
</table>

**KW1. Staff recommendation of the organisation as a place to work or receive treatment**
*Scale summary score*

<table>
<thead>
<tr>
<th>Recommendation</th>
<th>Trust score 2016</th>
<th>Trust score 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3.98</td>
<td>3.89</td>
</tr>
</tbody>
</table>
This page highlights the three Key Findings where staff experiences have deteriorated since the 2015 survey. It is suggested that these areas might be seen as a starting point for local action to improve as an employer. (However, please note that, as shown in section 3.3, when compared with other acute trusts in England, the scores for Key findings KF17, KF20, and KF21 are better than average).

WHERE STAFF EXPERIENCE HAS DETERIORATED

! KF17. Percentage of staff feeling unwell due to work related stress in the last 12 months

(\textit{the lower the score the better})

<table>
<thead>
<tr>
<th>Percentage score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2016</td>
</tr>
<tr>
<td>Trust score 2015</td>
</tr>
</tbody>
</table>

! KF21. Percentage of staff believing that the organisation provides equal opportunities for career progression or promotion

(\textit{the higher the score the better})

<table>
<thead>
<tr>
<th>Percentage score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2016</td>
</tr>
<tr>
<td>Trust score 2015</td>
</tr>
</tbody>
</table>

! KF20. Percentage of staff experiencing discrimination at work in the last 12 months

(\textit{the lower the score the better})

<table>
<thead>
<tr>
<th>Percentage score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2016</td>
</tr>
<tr>
<td>Trust score 2015</td>
</tr>
</tbody>
</table>

Because the Key Findings vary considerably in terms of subject matter and format (e.g. some are percentage scores, others are scale scores), a straightforward comparison of score changes is not the appropriate way to establish which Key Findings have deteriorated the most. Rather, the extent of 2015-2016 change for each Key Finding has been measured in relation to the national variation for that Key Finding. Further details about this can be found in the document \textit{Making sense of your staff survey data}.
3.3. Summary of all Key Findings for Royal Devon and Exeter NHS Foundation Trust

**KEY**

Green = Positive finding, e.g. there has been a statistically significant positive change in the Key Finding since the 2015 survey.

Red = Negative finding, e.g. there has been a statistically significant negative change in the Key Finding since the 2015 survey.

Grey = No change, e.g. there has been no statistically significant change in this Key Finding since the 2015 survey.

For most of the Key Finding scores in this table, the higher the score the better. However, there are some scores for which a high score would represent a negative finding. For these scores, which are marked with an asterisk and in *italics*, the lower the score the better.

4. Key Findings for Royal Devon and Exeter NHS Foundation Trust

Royal Devon and Exeter NHS Foundation Trust had 2709 staff take part in this survey. This is a response rate of 42%\(^1\) which is average for acute trusts in England, and compares with a response rate of 41% in this trust in the 2015 survey.

This section presents each of the 32 Key Findings, using data from the trust's 2016 survey, and compares these to other acute trusts in England and to the trust's performance in the 2015 survey. The findings are arranged under nine themes: appraisals and support for development, equality and diversity, errors and incidents, health and wellbeing, job satisfaction, managers, patient care and experience, and violence, harassment and bullying.

Positive findings are indicated with a green arrow (e.g. where the trust is in the best 20% of trusts, or where the score has improved since 2015). Negative findings are highlighted with a red arrow (e.g. where the trust’s score is in the worst 20% of trusts, or where the score is not as good as 2015). An equals sign indicates that there has been no change.

### Appraisals & support for development

**KEY FINDING 11. Percentage of staff appraised in last 12 months**

*(the higher the score the better)*

<td>3.49</td>
</tr>
</tbody>
</table>

---

\(^1\)Questionnaires were sent to all 6484 staff eligible to receive the survey. This includes only staff employed directly by the trust (i.e. excluding staff working for external contractors). It excludes bank staff unless they are also employed directly elsewhere in the trust. When calculating the response rate, questionnaires could only be counted if they were received with their ID number intact, by the closing date.
KEY FINDING 13. Quality of non-mandatory training, learning or development
