2017 National NHS staff survey

Brief summary of results from Taunton and Somerset NHS Foundation Trust
### Table of Contents

1: Introduction to this report  
2: Overall indicator of staff engagement for Taunton and Somerset NHS Foundation Trust  
3: Summary of 2017 Key Findings for Taunton and Somerset NHS Foundation Trust  
4: Full description of 2017 Key Findings for Taunton and Somerset NHS Foundation Trust (including comparisons with the trust’s 2016 survey and with other acute trusts)
1. Introduction to this report

This report presents the findings of the 2017 national NHS staff survey conducted in Taunton and Somerset NHS Foundation Trust.

In section 2 of this report, we present an overall indicator of staff engagement. Full details of how this indicator was created can be found in the document *Making sense of your staff survey data*, which can be downloaded from [www.nhsstaffsurveys.com](http://www.nhsstaffsurveys.com).

In sections 3 and 4 of this report, the findings of the questionnaire have been summarised and presented in the form of 32 Key Findings.

These sections of the report have been structured thematically so that Key Findings are grouped appropriately. There are nine themes within this report:

- Appraisals & support for development
- Equality & diversity
- Errors & incidents
- Health and wellbeing
- Working patterns
- Job satisfaction
- Managers
- Patient care & experience
- Violence, harassment & bullying

Please note, two Key Findings have had their calculation changed and there have been minor changes to the benchmarking groups for social enterprises since last year. For more detail on these changes, please see the *Making sense of your staff survey data* document.

As in previous years, there are two types of Key Finding:

- percentage scores, i.e. percentage of staff giving a particular response to one, or a series of, survey questions
- scale summary scores, calculated by converting staff responses to particular questions into scores. For each of these scale summary scores, the minimum score is always 1 and the maximum score is 5

A longer and more detailed report of the 2017 survey results for Taunton and Somerset NHS Foundation Trust can be downloaded from: [www.nhsstaffsurveys.com](http://www.nhsstaffsurveys.com). This report provides detailed breakdowns of the Key Finding scores by directorate, occupational groups and demographic groups, and details of each question included in the core questionnaire.
Your Organisation

The scores presented below are un-weighted question level scores for questions Q21a, Q21b, Q21c and Q21d and the un-weighted score for Key Finding 1. The percentages for Q21a – Q21d are created by combining the responses for those who “Agree” and “Strongly Agree” compared to the total number of staff that responded to the question.

Q21a, Q21c and Q21d feed into Key Finding 1 “Staff recommendation of the organisation as a place to work or receive treatment”.

<table>
<thead>

<tr>
<td>KF1. Staff recommendation of the organisation as a place to work or receive treatment (Q21a, 21c-d)</td>
<td>4.00</td>
<td>3.76</td>
<td>3.99</td>
</tr>
</tbody>
</table>
2. Overall indicator of staff engagement for Taunton and Somerset NHS Foundation Trust

The figure below shows how Taunton and Somerset NHS Foundation Trust compares with other acute trusts on an overall indicator of staff engagement. Possible scores range from 1 to 5, with 1 indicating that staff are poorly engaged (with their work, their team and their trust) and 5 indicating that staff are highly engaged. The trust’s score of 3.91 was in the highest (best) 20% when compared with trusts of a similar type.

**OVERALL STAFF ENGAGEMENT**

This overall indicator of staff engagement has been calculated using the questions that make up Key Findings 1, 4 and 7. These Key Findings relate to the following aspects of staff engagement: staff members’ perceived ability to contribute to improvements at work (Key Finding 7); their willingness to recommend the trust as a place to work or receive treatment (Key Finding 1); and the extent to which they feel motivated and engaged with their work (Key Finding 4).

The table below shows how Taunton and Somerset NHS Foundation Trust compares with other acute trusts on each of the sub-dimensions of staff engagement, and whether there has been a significant change since the 2016 survey.

<table>
<thead>
<tr>
<th>Change since 2016 survey</th>
<th>Ranking, compared with all acute trusts</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>OVERALL STAFF ENGAGEMENT</strong></td>
<td>• No change</td>
</tr>
<tr>
<td><strong>KF1. Staff recommendation of the trust as a place to work or receive treatment</strong></td>
<td>(the extent to which staff think care of patients/service users is the trust’s top priority, would recommend their trust to others as a place to work, and would be happy with the standard of care provided by the trust if a friend or relative needed treatment.)</td>
</tr>
<tr>
<td><strong>KF4. Staff motivation at work</strong></td>
<td>(the extent to which they look forward to going to work, and are enthusiastic about and absorbed in their jobs.)</td>
</tr>
<tr>
<td><strong>KF7. Staff ability to contribute towards improvements at work</strong></td>
<td>(the extent to which staff are able to make suggestions to improve the work of their team, have frequent opportunities to show initiative in their role, and are able to make improvements at work.)</td>
</tr>
</tbody>
</table>

Full details of how the overall indicator of staff engagement was created can be found in the document *Making sense of your staff survey data.*
3. Summary of 2017 Key Findings for Taunton and Somerset NHS Foundation Trust

3.1 Top and Bottom Ranking Scores

This page highlights the five Key Findings for which Taunton and Somerset NHS Foundation Trust compares most favourably with other acute trusts in England.

**TOP FIVE RANKING SCORES**

- **KF10. Support from immediate managers**  
  *(the higher the score the better)*

<table>
<thead>
<tr>
<th>Scale summary score</th>
<th>Trust score 2017</th>
<th>National 2017 average for acute trusts</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3.85</td>
<td>3.74</td>
</tr>
</tbody>
</table>

- **KF1. Staff recommendation of the organisation as a place to work or receive treatment**  
  *(the higher the score the better)*

<table>
<thead>
<tr>
<th>Scale summary score</th>
<th>Trust score 2017</th>
<th>National 2017 average for acute trusts</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3.99</td>
<td>3.75</td>
</tr>
</tbody>
</table>

- **KF9. Effective team working**  
  *(the higher the score the better)*

<table>
<thead>
<tr>
<th>Scale summary score</th>
<th>Trust score 2017</th>
<th>National 2017 average for acute trusts</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3.83</td>
<td>3.72</td>
</tr>
</tbody>
</table>

- **KF5. Recognition and value of staff by managers and the organisation**  
  *(the higher the score the better)*

<table>
<thead>
<tr>
<th>Scale summary score</th>
<th>Trust score 2017</th>
<th>National 2017 average for acute trusts</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3.56</td>
<td>3.45</td>
</tr>
</tbody>
</table>

- **KF18. Percentage of staff attending work in the last 3 months despite feeling unwell because they felt pressure from their manager, colleagues or themselves**  
  *(the lower the score the better)*

<table>
<thead>
<tr>
<th>Percentage score</th>
<th>Trust score 2017</th>
<th>National 2017 average for acute trusts</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>48%</td>
<td>52%</td>
</tr>
</tbody>
</table>
This page highlights the five Key Findings for which Taunton and Somerset NHS Foundation Trust compares least favourably with other acute trusts in England. It is suggested that these areas might be seen as a starting point for local action to improve as an employer.

**BOTTOM FIVE RANKING SCORES**

1. **KF27. Percentage of staff / colleagues reporting most recent experience of harassment, bullying or abuse**
   - (the higher the score the better)
   - **Percentage score**
     - Trust score 2017: 43%
     - National 2017 average for acute trusts: 45%

2. **KF22. Percentage of staff experiencing physical violence from patients, relatives or the public in last 12 months**
   - (the lower the score the better)
   - **Percentage score**
     - Trust score 2017: 16%
     - National 2017 average for acute trusts: 15%

3. **KF23. Percentage of staff experiencing physical violence from staff in last 12 months**
   - (the lower the score the better)
   - **Percentage score**
     - Trust score 2017: 2%
     - National 2017 average for acute trusts: 2%

4. **KF24. Percentage of staff / colleagues reporting most recent experience of violence**
   - (the higher the score the better)
   - **Percentage score**
     - Trust score 2017: 67%
     - National 2017 average for acute trusts: 66%

5. **KF29. Percentage of staff reporting errors, near misses or incidents witnessed in the last month**
   - (the higher the score the better)
   - **Percentage score**
     - Trust score 2017: 91%
     - National 2017 average for acute trusts: 90%

For each of the 32 Key Findings, the acute trusts in England were placed in order from 1 (the top ranking score) to 93 (the bottom ranking score). Taunton and Somerset NHS Foundation Trust’s five lowest ranking scores are presented here, i.e. those for which the trust’s Key Finding score is ranked closest to 93. Further details about this can be found in the document *Making sense of your staff survey data.*
3.2 Largest Local Changes since the 2016 Survey

This page highlights the five Key Findings where staff experiences have improved at Taunton and Somerset NHS Foundation Trust since the 2016 survey.

WHERE STAFF EXPERIENCE HAS IMPROVED

✓ KF6. Percentage of staff reporting good communication between senior management and staff

(\textit{the higher the score the better})

<table>
<thead>
<tr>
<th>Percentage score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2017</td>
</tr>
<tr>
<td>Trust score 2016</td>
</tr>
</tbody>
</table>

✓ KF31. Staff confidence and security in reporting unsafe clinical practice

(\textit{the higher the score the better})

<table>
<thead>
<tr>
<th>Scale summary score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2017</td>
</tr>
<tr>
<td>Trust score 2016</td>
</tr>
</tbody>
</table>

✓ KF10. Support from immediate managers

(\textit{the higher the score the better})

<table>
<thead>
<tr>
<th>Scale summary score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2017</td>
</tr>
<tr>
<td>Trust score 2016</td>
</tr>
</tbody>
</table>

✓ KF19. Organisation and management interest in and action on health and wellbeing

(\textit{the higher the score the better})

<table>
<thead>
<tr>
<th>Scale summary score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2017</td>
</tr>
<tr>
<td>Trust score 2016</td>
</tr>
</tbody>
</table>

✓ KF12. Quality of appraisals

(\textit{the higher the score the better})

<table>
<thead>
<tr>
<th>Scale summary score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2017</td>
</tr>
<tr>
<td>Trust score 2016</td>
</tr>
</tbody>
</table>
This page highlights the Key Finding that has deteriorated at Taunton and Somerset NHS Foundation Trust since the 2016 survey. It is suggested that this might be seen as a starting point for local action to improve as an employer.

WHERE STAFF EXPERIENCE HAS DETERIORATED

! KF27. Percentage of staff / colleagues reporting most recent experience of harassment, bullying or abuse

(\textit{the higher the score the better})

<table>
<thead>
<tr>
<th></th>
<th>Percentage score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trust score 2017</td>
<td>43%</td>
</tr>
<tr>
<td>Trust score 2016</td>
<td>49%</td>
</tr>
</tbody>
</table>

Because the Key Findings vary considerably in terms of subject matter and format (e.g. some are percentage scores, others are scale scores), a straightforward comparison of score changes is not the appropriate way to establish which Key Findings have deteriorated the most. Rather, the extent of 2016-2017 change for each Key Finding has been measured in relation to the national variation for that Key Finding. Further details about this can be found in the document \textit{Making sense of your staff survey data}. 
### 3.3. Summary of all Key Findings for Taunton and Somerset NHS Foundation Trust

**KEY**

- **Green** = Positive finding, e.g. there has been a statistically significant positive change in the Key Finding since the 2016 survey.
- **Red** = Negative finding, e.g. there has been a statistically significant negative change in the Key Finding since the 2016 survey.
- **Grey** = No change, e.g. there has been no statistically significant change in this Key Finding since the 2016 survey.

For most of the Key Finding scores in this table, the higher the score the better. However, there are some scores for which a high score would represent a negative finding. For these scores, which are marked with an asterisk and in *italics*, the lower the score the better.

4. Key Findings for Taunton and Somerset NHS Foundation Trust

Taunton and Somerset NHS Foundation Trust had 1746 staff take part in this survey. This is a response rate of 40%\(^1\) which is below average for acute trusts in England (44%), and compares with a response rate of 48% in this trust in the 2016 survey.

This section presents each of the 32 Key Findings, using data from the trust's 2017 survey, and compares these to other acute trusts in England and to the trust's performance in the 2016 survey. The findings are arranged under nine themes: appraisals and support for development, equality and diversity, errors and incidents, health and wellbeing, job satisfaction, managers, patient care and experience, and violence, harassment and bullying.

Positive findings are indicated with a green arrow (e.g. where the trust is in the best 20% of trusts, or where the score has improved since 2016). Negative findings are highlighted with a red arrow (e.g. where the trust’s score is in the worst 20% of trusts, or where the score is not as good as 2016). An equals sign indicates that there has been no change.

### Appraisals & Support for Development

**KEY FINDING 11. Percentage of staff appraised in last 12 months**

*The higher the score the better*

<table>

</tbody>
</table>

\(^1\)Questionnaires were sent to all 4371 staff eligible to receive the survey. This includes only staff employed directly by the trust (i.e. excluding staff working for external contractors). It excludes bank staff unless they are also employed directly elsewhere in the trust. When calculating the response rate, questionnaires could only be counted if they were received with their ID number intact, by the closing date.
KEY FINDING 13. Quality of non-mandatory training, learning or development

(\textit{the higher the score the better})

\begin{itemize}
\item Trust score 2017: 4.10
\item Trust score 2016: 4.06
\item National 2017 average for acute trusts: 4.05
\item Best 2017 score for acute trusts: 4.22
\end{itemize}

\textbf{Equality & diversity}

KEY FINDING 20. Percentage of staff experiencing discrimination at work in the last 12 months

(\textit{the lower the score the better})

\begin{itemize}
\item Trust score 2017: 10%
\item Trust score 2016: 12%
\item National 2017 average for acute trusts: 12%
\item Best 2017 score for acute trusts: 8%
\end{itemize}

KEY FINDING 21. Percentage of staff believing that the organisation provides equal opportunities for career progression or promotion

(\textit{the higher the score the better})

\begin{itemize}
\item Trust score 2017: 88%
\item Trust score 2016: 88%
\item National 2017 average for acute trusts: 85%
\item Best 2017 score for acute trusts: 94%
\end{itemize}

\textbf{Errors & incidents}

KEY FINDING 28. Percentage of staff witnessing potentially harmful errors, near misses or incidents in last month

(\textit{the lower the score the better})

\begin{itemize}
\item Trust score 2017: 29%
\item Trust score 2016: 31%
\item National 2017 average for acute trusts: 31%
\item Best 2017 score for acute trusts: 24%
\end{itemize}
